PROFESSIONAL SUMMARY

React.js Developer with 7+ years of experience (May 2019 – Present) building and maintaining web applications and contributing to React Native mobile development. Experienced in reusable component design, responsive UI, Redux state management, REST API integration, troubleshooting, and performance-focused implementation. Delivered product interfaces for healthcare research, service marketplaces, art exhibitions, education, domain management, camera retail, and time tracking using React.js, Redux, TypeScript, Next.js, Webpack, and Bootstrap. Focused on maintainable code, reliable user experiences, and collaboration with backend, QA, and project teams.

CORE TECHNICAL SKILLS

Frontend: React.js, React Native, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap

State & Navigation: Redux Toolkit, Redux, Context API, React Navigation

API & Data: REST API integration, JSON, Axios/fetch, AsyncStorage

Mobile Development: React Native, Android build/debug workflow, WebView integration

Tools & Workflow: Git, GitHub, npm, Webpack, VS Code, Android Studio, Agile/Scrum

Libraries: jQuery, Ajax

Engineering Practices: Reusable components, responsive UI, cross-browser compatibility, debugging, code maintainability, performance optimization

PROFESSIONAL EXPERIENCE

Software Developer | BEAS Consultancy And Services Private Limited

Salt Lake Sector 5, Kolkata | January 2025 – Present

- Develop and maintain application features using React.js, JavaScript, and React Native.
- Build reusable UI components and responsive layouts for web workflows.
- Integrate frontend screens with REST APIs and manage application state using Redux.
- Debug UI and integration issues and support ongoing feature delivery with the project team.

Software Engineer | SCHEMAPHIC SYSTEMS PVT. LTD.

Bansdroni, Kolkata | May 2019 – October 2024

- Developed and maintained web application interfaces using React.js and JavaScript.
- Built reusable UI components and responsive layouts to support consistent user experiences.
- Integrated frontend screens with REST APIs and handled application data and state using Redux and related patterns.
- Investigated UI and integration issues, debugged application behavior, and supported ongoing maintenance.
- Worked with project stakeholders and other developers to implement application requirements and deliver changes.
- Contributed to React Native development where required, including mobile UI and API-connected workflows.

SELECTED PROJECTS

- **Portolo (React.js, Redux):** Web platform for medical research workflows and healthcare solution management, covering organizations, entities, research data, study progress, role-based access, dashboards, and collaboration tools.
- **GetFound (React.js, Redux):** Service-provider platform that connects customers with providers and supports service requests, scheduling, and service management.
- **Sanatan Dinda (React.js, Redux):** Art exhibition website for showcasing exhibitions and artists' work, and for visitors to browse a range of art.
- **Helofoto (React.js, Redux):** Camera and lens shop application for browsing and purchasing from nearby stores, with invoice generation and management.
- **Hordanso (React.js, Redux, Webpack, micro-frontends):** Domain marketplace with admin and customer portals for buying and selling domains.
- **AME Electrical Solutions Inc. (React.js, Redux):** Generator service application with an admin portal for service requests, maintenance scheduling, and customer management.
- **Clock Me Now (React.js, Redux):** Time-capture application for logging and managing work hours.

- **Crestest (React.js, Redux):** Online learning application for school students, with an admin portal for content and a student portal for lessons and resources.

KEY STRENGTHS

- Component-based UI development and reusable frontend patterns.
- Frontend/backend coordination and REST API integration.
- Debugging, issue resolution, and maintainable implementation.
- Collaboration, task ownership, and working within iterative delivery processes.

EDUCATION

B.VOC. in Software Development | Asutosh College, Kolkata | May 2016 – June 2019

Higher Secondary | Paschim Putiary Sukharanjan Vidyamandir, Kolkata | April 2014 – May 2016

Madhyamik | Narendrapur Milan Vidyapith, West Bengal | May 2009 – June 2010
